

Michael is a Manager at Simione Healthcare Consultants in financial consulting with prior experience in marketing and sales, research and statistical analysis.

A Simione employee since 2011, Michael interned for the firm for almost a year following his graduation from Bucknell University with BS in Chemistry. He subsequently earned his MBA from Quinnipiac University, where he earned the Faculty Award for Academic Excellence.

Michael's work in financial consulting includes expertise in the development and implementation of the Simione Financial Monitor, a leading benchmarking tool in the home care and hospice industry. He also has experience working with organizations in regulatory compliance and cost reporting, as well as competitor analyses and financial feasibility studies for home health, hospice, and private duty agencies.
